

Who Counts?

Mathematics and global learning

A funded, Professional Development and Curriculum day
for teachers and trainee teachers of Maths at Key Stages 2 or 3

Inspiring classroom ideas and strategies that:

- use embodied (kinaesthetic) activities and 'street maths' to build confident learners
- develop critical numeracy and systems thinking to help prepare children for a complex, interdependent world
- deepen learning through P4C and enquiry based approaches
- explore the global origins and applications of maths
- value children's diverse heritages.

You will be have an opportunity to:

- explore innovative and engaging curriculum activities
- find out how to teach maths using global data with **Vikki Pendry** of The Curriculum Foundation
- plan ways to adapt the approaches for use in your own school
- share your experiences with PiCaM partner schools through e-twinning.  + 

Book now to attend a funded* CPD day on:

**Tuesday 9th July 10.30 - 4.30pm at
The Professional Development Centre,
229 Bethnal Green Rd, London E2 6AB.**

How to get there: Bethnal Green underground (Central line) and Shoreditch High Street over-ground stations are both a 10 minute walk away.

RSVP (by 15 June): bookings@decsy.org.uk
