

Successful International Partnerships

Setting up and maintaining equitable and sustainable school partnerships.

Monday 8th March 2021 1:00pm–4:00pm
and Monday 15th March (also 1– 4pm)

Connecting Classrooms through Global Learning offers teachers and school leaders in primary and secondary schools free access to high-quality professional development opportunities.

Global school partnerships can bring wide-ranging benefits - in terms of providing a wider, meaningful context for pupils' personal development and relationships education. The journey outward is the journey inward and encountering people from very different parts of the world can throw new light on one's own situation and life choices.

Whether you are a school with established practice in this area, or just starting out, this course offers an opportunity to reflect on how to make the most out of an international school link, keeping a focus on mutual, reciprocal sharing, learning and exploring together. Delegates will be supported to develop shared visions, action plans and evaluate with other teachers considering the benefits, challenges and practicalities of this life-changing work.

Suitable for: Primary, secondary and special school teachers and senior leaders with a responsibility for international links.

Fully
funded
training

Course details

Feedback from previous attendees

“I feel more confident participating in a partnership, more prepared.”

“Very informative course. Lots of ideas and resources which I could use.”

“Absolutely great, a real eye opener and has given me plenty to take away and implement in my partnership.”

Please note that, when booking, participants commit to attending both sessions.
