Colonialism, Slavery and the Industrial Revolution c1700 – 1860: The Empire in South Yorkshire

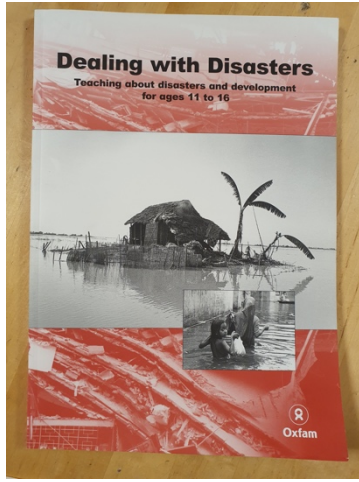

A DECSY teaching pack for KS3 which has lost none of its relevance since it was published. Explores the relationship between Britain's Industrial Revolution and colonialism in The Caribbean, Ireland and India. Uses South Yorkshire as a case study; includes two teacher's handbooks, photocopyable activities, a poster and a book containing a wealth of historical documents.

Target age: **KS3**

Publisher: **DECSY, 1992**

Also available as pdf download:

Dealing with Disasters

A teacher's handbook for use with KS3 and KS4, which aims to help students look beyond the headlines and provides curriculum links. Although the case studies are now old, the background information on earthquakes, floods, famine etc. remains highly relevant and the photocopiable activities useful and thought-provoking.

Target age: KS3 and KS4

Publisher: Oxfam, 2000

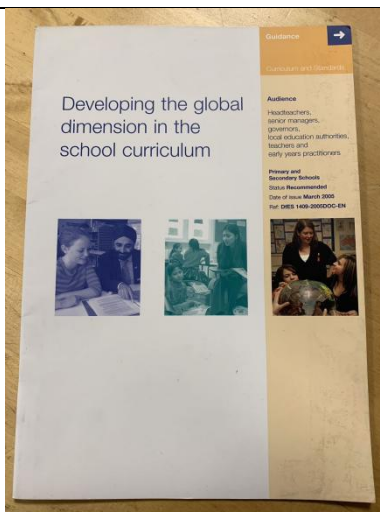

Developing Global Learners

Produced as part of a DECSY Early Years project with EYFS and Playwork staff. A selection of case studies and details of a range of activities. Promotes inclusion, cultural diversity and a global perspective.

Target age: EYFS

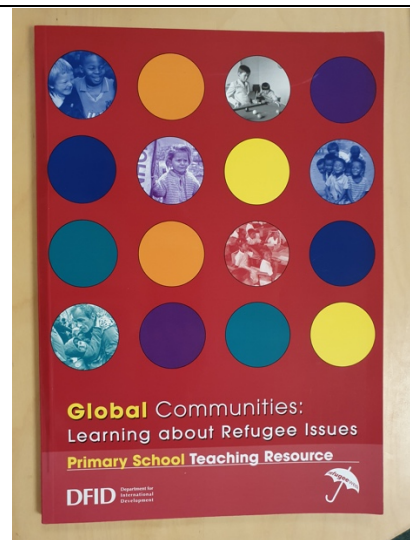

Publisher: DECSY, 2012

Developing the Global Dimension in the School Curriculum

This booklet supports the integration of the global dimension into the national curriculum and demonstrates the benefits of this. It outlines the 8 key concepts which underpin this and explores their impact on curriculum areas at all key stages as well as the implications for whole school practice.

Publisher: DfID, 2005

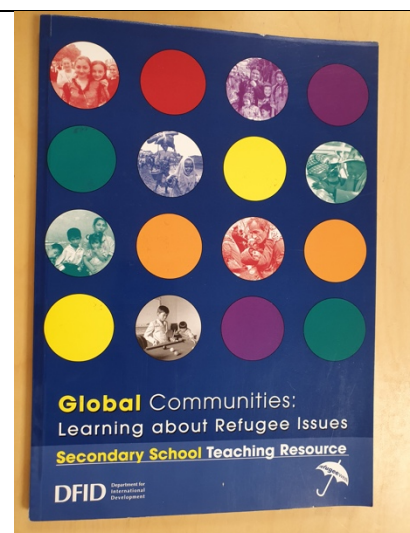

Global Communities: - Learning about refugee issues

Primary school teaching resource

A handbook aiming to show that refugees and asylum seekers are ordinary people who find themselves in extraordinary circumstances. Although its age means that the stats are out of date, the resource contains much valuable background information, history, stories, poetry and images. Many of the photocopyable activity sheets continue to be highly relevant, for example, 'The difference between wants and needs – what things are important for a happy life?'

Target age: KS1 and KS2

Publisher: **DfID / Refugee Week**

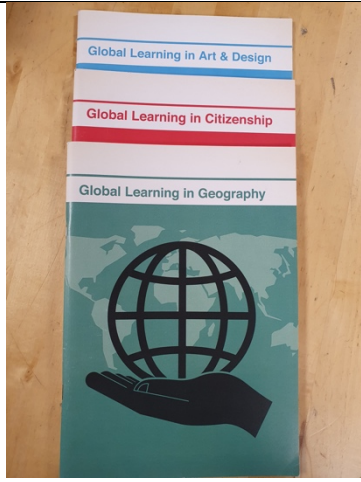

Global Communities: - Learning about refugee issues

Secondary school teaching resource

A handbook aiming to show that refugees and asylum seekers are ordinary people who find themselves in extraordinary circumstances. The resource is aimed at the relevant subject areas with additional material which could be used for assemblies or special events. The activities include a 'Crossing the Border activity sheet' and a 'Can I come in? role play' in which participants are divided into groups of refugees, immigration officers and observers.

Target age: KS3 and KS4

Publisher: **DfID / Refugee Week**

Global Learning in Geography

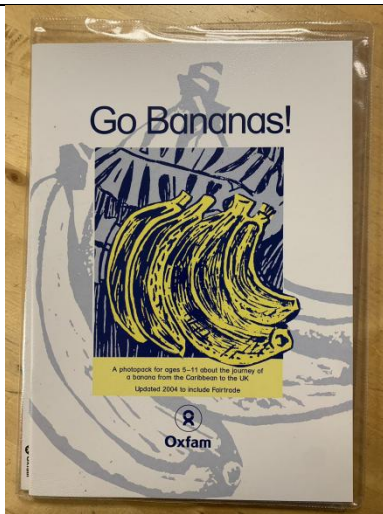

Global Learning in Art and Design

Global learning in Citizenship

A set of teacher's handbooks arising out of the world-class Teaching Global Learning framework. They aim to support the embedding of Global Learning into subject areas across the curriculum, and contain some overlapping information before providing subject-specific ideas and topics.

Target age: KS3 and KS4

Publisher: Leeds DEC, 2015

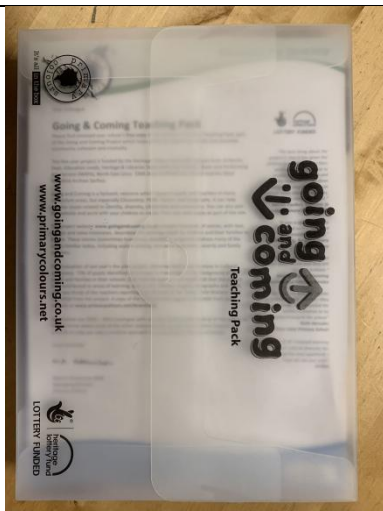

Go Bananas: photopack

Photopack designed for use in a mixed-ability primary school classroom. Includes a range of activities, photocopiable worksheets and maps, and a wealth of background information, not to mention a recipe for banana bread!

Target age: KS1 and KS2

Publisher: Oxfam, 2004

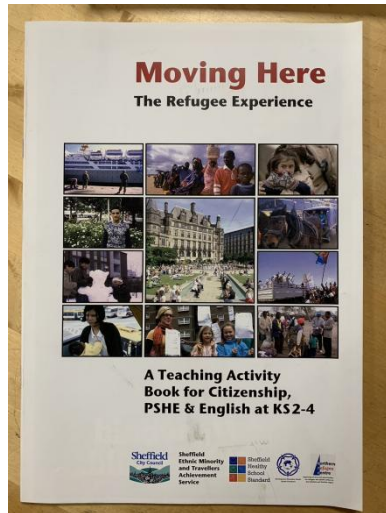

Going and Coming

A pack produced as part of the Going and Coming project, designed to preserve migration stories and promote community cohesion and creativity. Includes a teacher's handbook and a set of booklets containing stories of people who left one place to live in another – as told to the children who interviewed them. Addresses relevant issues around migration and supports a range of curriculum areas.

Target age: KS2 and KS3

Publisher: Primary Colours, 2010

	<p>Going Up Growing Up</p>	<p>A pack resulting from a three-year project on the transition from primary to secondary school. It provides sessions to support the training of peer educators and workshops which can be delivered by peer educators to primary school children. The project focussed on global citizenship issues and evidenced benefits for the peer educators (increased self-confidence) as well as the primary pupils (improved transition experience).</p> <p>Target age: Yr 6 and Yr 7</p> <p>Publisher: DEP, 2010</p>
	<p>#i will 4 nature</p>	<p>Box pack produced by The Eden Project. Contains resources for the whole class: Your little list fold-out card – for looking after nature; Fortune teller sheets with instructions on how to make and how to play; Human bingo cards with ideas for use. Plus teacher’s guide.</p> <p>Target age: KS1 and KS2</p> <p>Publisher: The Eden Project</p>
	<p>Kashmiri Folk Tales</p>	<p>A delightfully –illustrated dual language (English and Urdu) collection produced as part of the British Council Connecting Classrooms project. The stories are retold and illustrated by school children in Rotherham and Pakistan.</p> <p>Target age: KS1 and KS2</p> <p>Publisher: RMBC /BC</p>

**Moving Here:
The refugee
experience**

Produced as part of a collaborative Sheffield-based project, originally supporting an interactive exhibition, this contains a programme for Citizenship, PSHE and English activities for Years 6 – 13. These relate to issues of identity, rights, exclusion, prejudice and migration and aim to build empathy and understanding with regard to refugees and asylum-seekers.
Target age: Yr 6 – Yr13

Publisher: **DECSY, 2008**

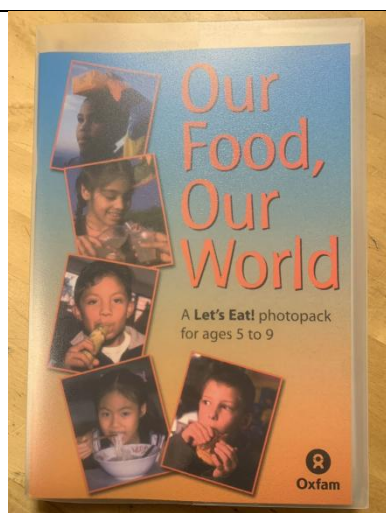

**Olaudah Equiano
in Sheffield**

A history and citizenship resource designed primarily for KS2 but with potential for use in KS3. Contains a wealth of historical documents and images which can be used for teaching about the history of slavery and abolition. The activities illustrate aspects of social history – local, national and global – with a focus on the 1790s.

Target age: **KS2**

Publisher: **DECSY, 2007**

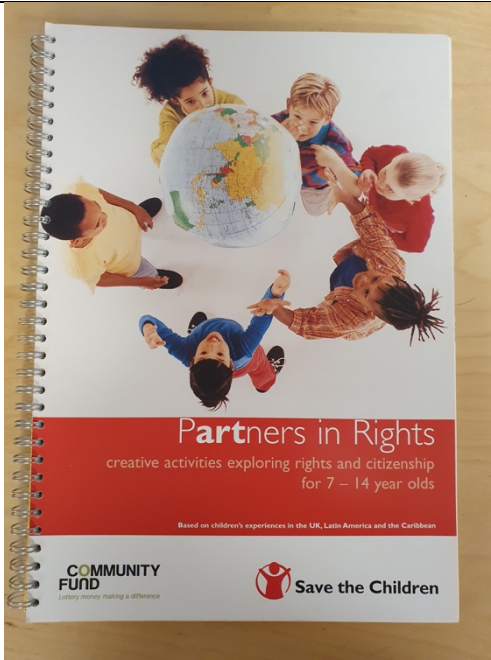

**Our Food, Our
World:
photopack**

A pack about food for ages 5 – 9. Includes teacher's handbook, poster and set of photos. Case studies of the lives of five children around the world show where food comes from, its part in celebrations, and provide information about healthy eating, cooking, preparing and storing food. The global dimension builds children's understanding of the wider world.

Target age: **KS1 and KS2**

Publisher: **Oxfam, 2007**

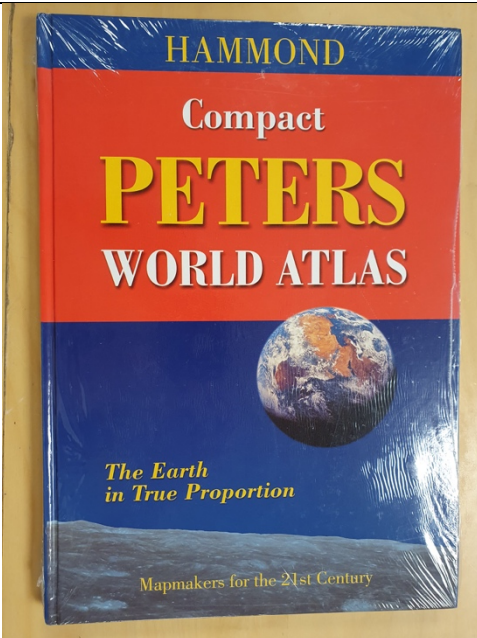

Partners in Rights:
creative activities exploring rights and citizenship for 7 – 14 year olds

Pack includes photos, poster and teacher's handbook with many photocopiable activity sheets. Part of a project which aimed to increase children's understanding of the UN Convention on the Rights of the Child through creative arts processes which took place in Brazil, Peru, Cuba and the UK.

Target age: KS2 and KS3

Publisher: **Save the Children, 2000**

**Peters World Atlas -
The World in True Proportion**

The first atlas to show each country at the same scale, and at its true size in relation to the rest of the world. Includes 3-D relief maps, satellite imaging and thematic world maps.

Publisher: **Hammond**

£5 extra charge for this publication.

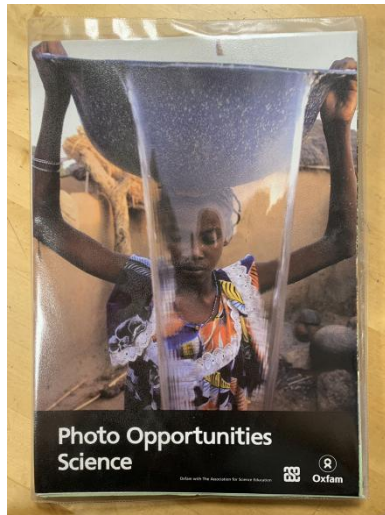

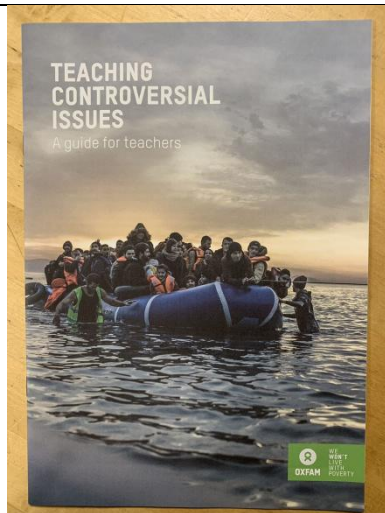

Photo-opportunities Science

Pack containing photos, poster and teacher's handbook with activities for the primary classroom. The use of photographs can help make science more accessible, and gives children a broader perspective on the world by making links between their own lives and the lives of others.

Target age: KS1 and KS2

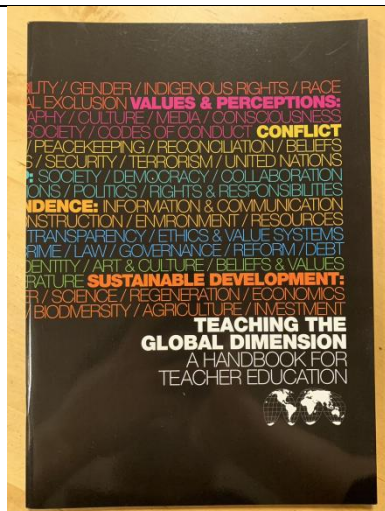

Publisher: **Oxfam, 2002**

Teaching Controversial Issues

A guide for use with all ages from under-5s to post 16s and across a wide range of curriculum areas. Explores what controversial issues are, reasons for teaching them, and the value of a global citizenship approach.

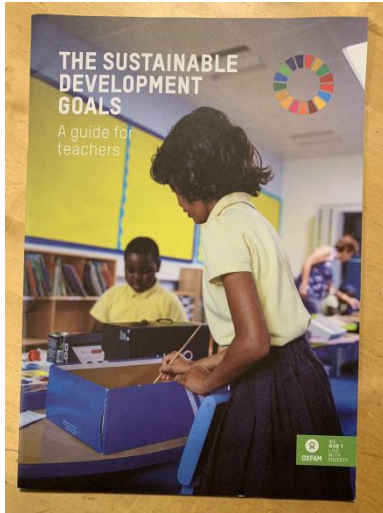

Publisher: **Oxfam, 2016**

Teaching the Global Dimension

A handbook for university tutors and school mentors involved in teacher training. Developed as part of a programme to embed the global dimension into teacher training. Can also be used as a valuable teaching resource for all teachers and whole-staff development.

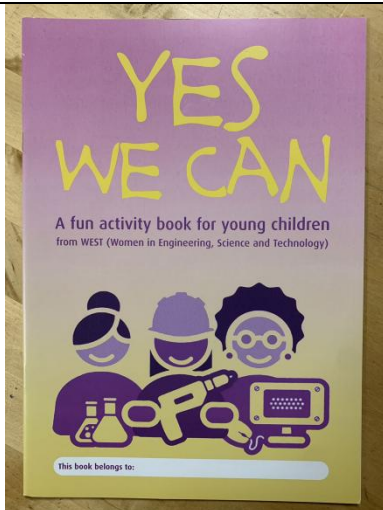

Publisher: **DEP**

The Sustainable Development Goals (SDGs) - A guide for teachers

Considers the relevance of the SDGs and global citizenship education to good practice, outlines the benefits of this approach and provides guidance on curriculum links. Includes case studies and activities, as well as pointers for further development.

Publisher: Oxfam, 2019

**Yes We Can:
A fun activity book for young children**

Puzzles, cartoons and stickers, all designed to show some of the jobs in engineering, science, technology and construction that everyone can do.

Publisher: **WEST**
(Women in Engineering Science and Technology)
